NAGENDRA M.P

Bengaluru, Karnataka, India | +91 7795456170 | nagendramp7795@gmail.com
LinkedIn | GitHub

SUMMARY

Computer Science Engineering graduate with experience in MERN stack development, system administration, infrastructure monitoring, and technical troubleshooting. Skilled in JavaScript, React.js, Node.js, Express.js, Python, REST APIs, databases, Git, and Docker, with project experience in application development, API monitoring, and AI-powered solutions. Familiar with Linux, system operations, debugging, testing, and deployment workflows. Strong problem-solving and analytical skills with an interest in software engineering, full-stack development, and infrastructure automation.

EDUCATION

K.S. Institute of Technology – VTU *2023 – 2026*
B.E. Computer Science Engineering CGPA: 8.17
Shri Siddhartha Polytechnic *2020 – 2023*
Diploma in Computer Science Engineering CGPA: 8.8

EXPERIENCE

System Administrator Intern *Jul 2026 – Oct 2026*
DataCorp Traffic Limited

- Support daily **system administration**, **IT infrastructure operations**, system maintenance, and technical troubleshooting.
- Assist with **infrastructure monitoring**, service availability checks, issue identification, and incident escalation to support reliable system operations.
- Troubleshoot **network connectivity**, hardware, and software issues involving fundamental networking concepts such as **TCP/IP, DNS, DHCP, HTTP/HTTPS**.
- Assist with **system configuration**, software installation, operational documentation, and routine maintenance in support of infrastructure reliability.
- Gain practical exposure to **DevOps practices**, including monitoring, logging, incident handling, and collaboration with technical teams to improve operational reliability.

MERN Stack Developer Intern *February 2026 – May 2026*
Project: Frontend | Backend API

- Developed responsive frontend components using React.js and JavaScript, focusing on usability and maintainable code.
- Integrated frontend components with Node.js, Express.js, and REST APIs to support application features and data exchange.
- Contributed to feature implementation, debugging, testing, and troubleshooting during application development.
- Used Git for version control and contributed to documentation and application deployment activities.

“‘latex

Projects

API Monitoring System *Python, FastAPI, Grafana*

- Developed an **API monitoring system** to track endpoint availability, response time, uptime, and service health.
- Implemented **health checks, logging, and monitoring** to help identify service failures and visualize API performance using **Grafana**.

RAG-Based Policy Assistant *Python, FastAPI, LangChain, ChromaDB*

- Built a **Retrieval-Augmented Generation (RAG)** assistant that retrieves relevant policy information using **semantic search** and vector embeddings.
- Developed a **FastAPI backend** and integrated **LangChain** and **ChromaDB** to support document retrieval and context-aware AI responses.

Vital Ambulance — Patient Monitoring and Anomaly Detection *React, Python, Scikit-learn, REST APIs*

- Developed a patient-monitoring application integrating a **React frontend**, APIs, and a Python-based anomaly detection pipeline.
- Applied **Isolation Forest**, **One-Class SVM**, and rule-based explanations to identify potentially critical changes in patient vital signs.
- Project demo: **Live Demo**

“‘

TECHNICAL SKILLS

Development

- **Programming:** JavaScript, Python, C++
- **Frontend:** React.js, HTML5, CSS3, Responsive Design
- **Backend:** Node.js, Express.js, FastAPI, REST APIs, JSON
- **Databases:** MongoDB, MySQL, PostgreSQL, SQLite
- **Practices:** Debugging, Testing, SDLC, Documentation

Systems, Tools & Emerging Technologies

- **Systems:** Linux, Windows, System Administration
- **Tools:** Git, GitHub, Docker, Postman, VS Code
- **Monitoring:** Grafana, API Monitoring, Logging
- **AI/ML:** Scikit-learn, Machine Learning, RAG
- **GenAI Tools:** LangChain, LangGraph, ChromaDB

CORE COMPETENCIES

- Problem Solving
- Analytical Thinking
- Debugging and Troubleshooting
- Team Collaboration
- Technical Documentation
- Learning Agility

EXTRA CURRICULAR ACTIVITIES

TLP at Students Home • Participated in Hackathons • Organized Technical Events in Inter-hostel Competitions

LANGUAGES

Kannada • English • Telugu • Hindi • Tamil
